Informing the inmate about alternatives
# Model of promoting social reintegration after prison release

## SOCIAL REINTEGRATION PROCESS

| Correlation of the needs and risks of inmates with the educational programs, psychological support, social assistance and social inclusion approach | Involving local community, in their dual quality: **partners** of prison service and **beneficiaries** of the whole process of social reintegration | Starting the process from executional phase and naturally **continuing it after the release** |
Model of promoting social reintegration after prison release

Facilitating post-detention assistance to a systemic level

- Analysing, modifying or filling the regulatory framework
- Partnerships between local and central public authorities and institutions, nongovernmental associations and organizations and local communities
- Continuity of the interventions for the former-inmates
- Establishment, organization and administration of the social inclusion centres and social enterprises
Model of promoting social reintegration after prison release

- Detention
- Continuity
- Connection
- Inter-dependence
- After detention

EMPOWER
DIVERSIFY
Model of promoting social reintegration after prison release

- Participation of inmates at Job fair on local community
- Alternative measures (residential centres, therapeutic communities)
- Theatre, creative writing and National Theatre Festival for Inmates
- Italian Law 381/91 about social cooperatives
- Italian Law 381/91 about social cooperatives
The Housing Support Program for Reintegration proposes intervention at a psychological, educational and social level, through psychotherapeutic activities, occupational workshops and labor insertion and integration programs in the environment.

Reintegration Centre in Vicar (Spain)  
(Vivienda de Apoyo a la Reinsercion)
The Centre of Minors "Paco Fernandez“ Vicar (Spain) (boys and girls with behavioral problems, aged 12-18)

A multidisciplinary team works in a coordinated way to respond to the needs of children in different contexts (individual, family, residential, school, community, health)
Therapeutic Community "La Quinta“ for drug consumers – Laujar de Andarax (80 km from Almeria, Spain)

The intervention lasts between 6 and 9 months and it’s focused on preventing of relapses, developing social abilities, stress management and solving conflicts, through psychological support and occupational therapy.
L’Ovile manages structures aimed at the rehabilitation of people subject to criminal measures alternative to detention.

Structures are planned as educative setting aimed at social reintegration and reduction of crime risk. Labour integration in the cooperative is part of the educational path.
